

Breast Cancer Awareness Luncheon

Thursday, October 3, 2013

Common Hour—Kiernan Suite

Special Guest Speaker

Peter Criss

Founding Member of **KISS**

In 2008, Peter was diagnosed with breast cancer. Upon undergoing both a lumpectomy and mastectomy, he is now cancer-free.

He now hopes to be a role model in another sense to help raise the public's consciousness of the fact that men can get breast cancer too.

As Peter says, “we need to add a little **blue** with the **pink**” !

Through his 2012 autobiography *Make Up to Breakup: My Life in and Out of Kiss* and other work in dedication to the cause, Peter says he is on a mission to spread the word about early detection for men and women. For his efforts, the American Cancer Society honored Peter as Humanitarian of the Year in March.

Co-sponsored by
Student Health Services, Campus Activities Board, and Chi Theta Omega Fraternity.
